

As a first time mom who works, finding the right daycare was very important. Choosing Kids World Center to care for my children has been a wonderful decision for us! Mrs. Tommy and the staff are very professional and helpful. My children have learned so much since they started daycare there! I believe it is because of the structure and curriculum they provide at Kids World Center. The staff turnover seems very low, which is great because the caregivers really seem to get to know my children and provide very consistent, quality care. The teachers seem genuinely happy to be there and excited to care for my children. They are very organized and make it so much easier for the parents during drop-off and pick-up times. We love Kids' World Center and would recommend it to anyone!
