

It is my pleasure to share my experience with The Kids World Center. As a new mother, I was extremely concerned about locating a child care to entrust my son. I called Miss Tommy to set up an appointment to meet her. To my delight, she not only met with me and my husband, but she encouraged us to drop by at any time unannounced. When I observed her interacting with the children, it was evident that she loved and cared for each child and the children loved her in return. Miss Tommy will send me texts and emails and she keeps in touch with me regarding our son. She has truly put my mind at ease. After a year, my son still smiles and kicks with excitement each morning when he sees her open the door and is happy and having a ball when I pick him up in the afternoon. My son has learned so much as Miss Tommy guides the children through play and meaningful activities designed appropriately for each age. I can think of no other environment that could be more nurturing. I am so thankful that we found The Kids World Center!
