

As a stay at home mom of two returning back to work was not a decision we took lightly. To say that I was anxious would put it mildly. My fears were quickly put to rest when we met Mrs. Tommy. From the first day my kids stepped through door, we have felt comfortable and confident in their care. Growing by leaps and bounds both of my children have continued to develop cognitive and social skills. A few month after we started at The Kids' World Center, I asked my little girl who her best friend was, with a huge grin, she responded "Mrs. Tommy!".

Values that are important for us are incorporated into daily routines, leaving you children in hands of others to both raise and care for during the day can be a very agonizing process, but we rest firm that our kids are safe during the day and are being raised with the same love and values that we would show them at home. Thanks Mrs. Tommy for doing such a great job and loving our kids as we love them.

Leanne and Brian Pettway.
